apexenergetics™

**Trizomal™ Glutathione** is a breakthrough new approach to glutathione supplementation. It features, **for the first time in a liposomal solution, S-acetyl L-glutathione (SAG)**, combined with reduced glutathione (GSH), and N-acetyl L-cysteine (NAC). This formulation utilizes three ways to support glutathione—intracellular with SAG, intracellular biosynthesis with NAC, and extra/intracellular (systemic) support with GSH.\* **Moreover, the liposomal S-acetyl L-glutathione in this formula provides a double layer (acetylation + liposomes) of protection to the glutathione molecule, further supporting its intracellular bioavailability.\***

#### Features

- Gives the body three ways to increase and optimize glutathione levels\*
- Gluten free and dairy free, as confirmed by testing
- Liposomes are composed of non-hydrogenated phospholipids, derived from GMO-free sunflower lecithin

#### Benefits

- Supports intracellular and mitochondrial antioxidant processes\*
- Supports healthy brain function\*
- Supports the liver and detoxification activity\*
- Supports balanced immune system function\*
